Your current grade is calculated based on points earned divided by points possible within each category. Be aware, bonus points are currently inflating your overall course grade a lot more than they will once we have more quizzes (larger denominator). Categories are then multiplied by their respective values and totaled to get your actual course grade. The current course grade is only an estimate, and assumes that you will continue to perform as you have in the course for the rest of the semester. If you do better or worse on future assignments, it may not accurately reflect your final course grade. If you are unhappy with your current course grade, please feel free to come talk with me. Also, you probably need to spend more effort in studying and should take advantage of some of the many bonus opportunities that are available.
